Request for a Complete Waiver of Fees:

Requestors are willing to pay any reasonable expenses associated with this request, however, as the purpose of the requested disclosure is in full conformity with the statutory requirements for a waiver of fees, a full fee waiver should be granted.

The disclosure of responsive records is likely to contribute to an understanding of government operations and activities because the disclosable portions of the requested records will be meaningfully informative about those operations and activities. The vast majority of disclosable information is not already in the public domain, in either a duplicative or a substantially identical form, and therefore the disclosure would add substantial new information to the public's understanding of the EPA's operations and the requested documents.

The requesters firmly intend to analyze the requested records in order to facilitate significant expansion of public understanding of government operations. The audiences likely to be interested in the subject are broad, and include historians of modern American government, politics, culture, and national security; journalists reporting on American politics, government, national security, and society; civil liberties attorneys; advocacy and watchdog organizations, the U.S. congress, and the broader public.

Please do not hesitate to contact me if you have any questions concerning this request.
